

2010-2011 School Fees

Students at all grade levels are expected to have their own basic school supplies. A list of those supplies is available at each school. The following fees have been approved by the Board of Education for the 2010-2011 school year. These fees cover a portion of the expendable supplies used by each student participating in these specific classes and activities.

Fees will be waived for students qualifying for free or reduced price meals under the Federal Free or Reduced Price Meal Policy. Fees will be prorated for students coming on or going off the meal assistance program during the school year.

Students may also be charged for optional materials that they select for class projects in addition to the Board adopted fees.

In some high schools, fees are assessed by credits and half credits rather than by year or semester. Please check with the high school at registration.

Fees for retaking non-elective classes required for graduation are being assessed as per Board policy JNA/JNA-R. This retake fee will be in addition to any other school fee required for that class.

The fee structure as adopted by the Board of Education is subject to annual change.
